SERGIO ARAGONÉS MARGINALS XL

Whoever said "The bigger they are, the harder they fall" obviously never saw one of Sergio Aragones' "marginal" cartoons printed in full size! (They were probably too busy coming up with more catchy, yet horribly inaccurate, maxims!) Just take a look at his creations in the same mighty size that he submits them to us, and you'll agree that they're in *no* danger of toppling!
